SINCLAIR DEMONSTRATES COMPLETE MOBILE DTV SOLUTION

BALTIMORE (April 20, 2009) -- Sinclair Broadcast Group, Inc. (Nasdaq: SBGI), the “Company” or “Sinclair,” today announced that it is supporting the demonstration of a complete Mobile DTV system using its digital station KVCW-DT, “the CW Las Vegas” during the 2009 NAB show in Las Vegas, Nevada (April 18-23, 2009). Sinclair, working with a team of industry leading product and services organizations, has developed solutions based on the recently published ATSC Mobile DTV (A/153) Candidate Standard (CS).

Commenting on the collaborative effort, Mark Aitken, Director of Advanced Technology of Sinclair, stated, “Bringing together companies to develop products and business solutions based on the ATSC Candidate Standard is another step to help ensure the success of Mobile DTV for broadcasters. It also underscores the commitment of Sinclair to deploy Mobile DTV in multiple markets inside of the next year based on mature and innovative solutions jointly refined and developed.” Sinclair earlier this year declared its intention to launch Mobile DTV in multiple markets this year in an announcement made in cooperation with the Open Mobile Video Coalition (www.OMVC.org) at the Consumer Electronics Shows in January of this year.

The following outlines the various companies and their involvement in this collaborative effort and their location at the 2009 NAB Show.

- Ai (Acrodyne Industries) LVCC C1336/C8546N
  - System Integration - AVC Encoders, Program Service Metadata server, OMA (Open Mobile Alliance) Electronic Service Guide and Interactive applications, Mobile Service Multiplexer with IP Encapsulation and Exciter - into one product - "Mobile360".
