Forward-Looking Statements — Bally’s Corporation

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. All statements, other than historical facts, including future financial and operating results and Bally’s Corporation’s (“Bally’s”) plans, objectives, expectations and intentions, legal, economic and regulatory conditions and any assumptions underlying any of the foregoing, are forward-looking statements.

Forward-looking statements are sometimes identified by words like “may,” “will,” “should,” “potential,” “intend,” “expect,” “endeavor,” “seek,” “anticipate,” “estimate,” “overestimate,” “underestimate,” “believe,” “could,” “project,” “predict,” “continue,” “target” or other similar words or expressions. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) the risk that the contemplated Bet.Works acquisition and Sinclair Broadcast Group partnership described in this presentation, and the expected benefits therefrom and the timing thereof, do not occur as planned or at all; (2) the risks that U.S. sports betting and iGaming will not increase as expected by management, unexpected costs, charges or expenses resulting from the proposed transactions, and risks involved in integrating a technology-focused company into Bally’s; (3) uncertainty surrounding the ongoing COVID-19 pandemic, including uncertainty regarding its extent, duration and impact, the resulting closure of Bally’s properties (all of which have re-opened at some limited level of capacity) and the risk that the ongoing COVID-19 pandemic may require Bally’s properties to close again for an indeterminate period of time; (4) the time it will take Bally’s to return its facilities to full capacity and the restrictions applicable to its facilities until then; (5) the costs to comply with any mandated health requirements associated with the virus; (6) customer responses as Bally’s facilities continue to operate under various restrictions including the time it takes customers to return to the facilities and the frequency with which they visit Bally’s facilities; (7) the economic uncertainty and challenges in the economy resulting from the ongoing COVID-19 pandemic, including the resulting reduced levels of discretionary consumer spending; (8) challenges Bally’s may face in bringing employees back to work upon re-opening of its facilities; (9) unexpected costs, charges or expenses resulting from the recently completed acquisitions; (10) uncertainty of the expected financial performance of Bally’s, including the failure to realize the anticipated benefits of its acquisitions; (11) Bally’s ability to implement its business strategy; (12) evolving legal, regulatory and tax regimes; (13) the effects of competition that exists in the gaming industry; (14) the actions taken to reduce costs and losses as a result of the COVID-19 pandemic, which could negatively impact guest loyalty and our ability to attract and retain employees; (15) risks associated with increased leverage from Bally’s recently completed and proposed acquisitions; (16) the inability or unwillingness of the lenders under our revolving credit facility to fund requests that we may make to borrow amounts under the facility; (17) increased borrowing costs associated with higher levels of borrowing and (18) other risk factors as detailed under Part I, Item 1A, “Risk Factors” of Bally’s Annual Report on Form 10-K for the fiscal year ended December 31, 2019 as filed with the Securities and Exchange Commission on March 13, 2020 and Bally’s Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2020 as filed with the Securities and Exchange Commission on November 6, 2020. The foregoing list of important factors is not exclusive.

Any forward-looking statements speak only as of the date of this presentation. Bally’s does not undertake any obligation to update any forward-looking statements, whether as a result of new information or development, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.
Certain statements and information in this communication may be deemed to be “forward-looking statements” within the meaning of the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, statements relating to Sinclair Broadcast Group, Inc. ("Sinclair") objectives, plans and strategies, and all statements (other than statements of historical facts) that address activities, events or developments that Sinclair intends, expects, projects, believes or anticipates will or may occur in the future. These statements are often characterized by terminology such as “believe,” “hope,” “may,” “anticipate,” “should,” “intend,” “plan,” “will,” “expect,” “estimate,” “project,” “positioned,” “strategy” and similar expressions, and are based on assumptions and assessments made by Sinclair management in light of their experience and their perception of historical trends, current conditions, expected future developments, and other factors they believe to be appropriate. Any forward-looking statements in this communication are made as of the date hereof, and Sinclair undertakes no duty to update or revise any such statements, whether as a result of new information, future events or otherwise. Forward-looking statements are not guarantees of future performance. Whether actual results will conform to expectations and predictions is subject to known and unknown risks and uncertainties, including: the risk that the contemplated Bally’s partnership described in this presentation, and the expected benefits therefrom and the timing thereof, do not occur as planned or at all; the risk that Sinclair may not be able to recognize the expected value of its equity investment in Bally’s if regulatory approval is delayed, is not obtained or is obtained subject to conditions that are not anticipated, the risk that the upward trend in legalization of sports betting by states will not continue, the risk associated with leveraging new revenue opportunities, pricing fluctuations in local and national advertising, the potential impact of announcement of the partnership or consummation of the Bally’s partnership on relationships, including with employees, customers and competitors, the potential impacts of the COVID-19 pandemic (including the postponement and potential cancellation of MLB, NBA and NHL games) on our business operations, financial results and financial position and on the world economy, the impact of changes in national and regional economies, our ability to generate cash to service our substantial indebtedness, pricing and demand fluctuations in local and national advertising, volatility in programming costs, the market acceptance of new programming, the successful execution of retransmission consent agreements, the successful execution of network and MVPD affiliation agreements and related renewals, the effects of “blackouts” of our services by MVPDs and vMVPDs, the successful execution of media rights agreements with professional sports teams, the impact of OTT and other emerging technologies and their potential impact on cord-cutting, the impact of MVPDs, vMVPDs, and OTT distributors offering “skinny” programming bundles that may not include all programming of our networks, our ability to identify and consummate acquisitions and investments and to achieve anticipated returns on those investments once consummated, and uncertainties associated with potential changes in the regulatory environment affecting our business and growth strategy. Refer to the section entitled “Risk Factors” in the annual and quarterly reports filed by Sinclair, with the SEC for a discussion of important factors that could cause actual results, developments and business decisions to differ materially from forward-looking statements.
